News Of Local Libertarians' Struggle For Freedom

## **HINKLE TRIES AND FAILS IN BID TO TERMINATE SANTA CLARA LIBERTARIAN NEWSLETTER!**

**Despite Lobbying To End SCL's Publication, Hinkle's Motion Gets Only One Vote -- His; Motion Is Illegal Under LPSCC By-laws, But Surprisingly It Is Not Rejected By Chair**

Mark Hinkle

termination

What most media regard as "news" are events which are either highly important in their effect or potential effect on people or highly surprising. The biggest local Libertarian Party news in July was something highly surprising. During the LPSCC's July Excom meeting at Denny's in San Jose, Mark Hinkle made a motion to cease publication of the Santa Clara Libertarian newsletter! The motion was debated and was defeated in the subsequent vote with only Hinkle voting in favor of his motion.

The following two statements, which were considered worthy of recording by the substitute secretary, Mike Laursen ( Secretary Dehn didn't attend), were made during discussion:

1. Jon Hugdahl reported that \$3529.51 was spent on newsletter publishing and distribution for the two years from April 2001 to April 2003, inclusive (averaging \$392 per quarterly printed issue).

2. Hinkle said, referring to a very recent resolution on the subject of inactive regions by the LPC Excom, "The LPC-EC does not require our region to publish a newsletter. It is a common misunderstanding. However, if the LPC-EC finds that the Santa Clara region is inactive, we would be required to have a quarterly newsletter to regain active status."

[Editor's note: I wasn't present and SCL reporter Laursen did not say, so it is not clear why Hinkle said this during the debate unless one of the members argued that regions are required by the LPC to publish a newsletter. Otherwise it's difficult to see why the LPC's requirement or lack of one for a regional newsletter has any bearing on the issue of discontinuing the LPSCC's newsletter since the LPSCC has its own bylaws requiring a newsletter, which are not in conflict with any LPC requirement. Moreover since an inactive region must publish a newsletter at least quarterly to be declared active, the lack of that requirement on an active region as cited by Hinkle, seems to be a distinction without a difference.]

As a reason for terminating publication of the SCL, members present said Hinkle alleged "It does more harm than good" and complained about its quality, saying that it had excessive typographical errors. They said as an example he pointed to its inconsistent references to the national LP in an article in the May issue as either "LNC" or "NLC". He is also reported to have been generally unhappy with some editorial comments and policies.

[Editor's note: What a bizarre evaluation considering that 2002 LPC Treasurer and 2003 LPC Secretary Lori Adasiewicz wrote to Art Tuma, LP Sacramento Chair: "Santa Clara has a great newsletter if you want an example." according to an email he sent me asking to see a sample of one of my SCL issues.]

# ***BAY AREA REGIONS ASSIST OUTRIGHT LIBERTARIANS AT S.F. GAY PRIDE EVENT***

Reported by Rob Power, LP SF Vice Chair & Outright SFBA Chair

This year, the LP San Francisco left it to the new local chapter of Outright Libertarians to organize our annual SF LGBT Pride Celebration OPH Booth and Parade entry. (Political parties are given a hard time by the Parade organizers due to City Hotel Tax dollars funding the parade, so instead of the Democrat, Republican, and Green Parties having parade entries, it was the Harvey Milk / Toklas Clubs, the Log Cabins, and the Lavender Greens – and, this year, Outright Libertarians.) This also had the added benefit of enabling other region LPs to participate, since the Outright chapter covers the nine county Bay Area. East Bay Libertarians contributed greatly this year, providing the booth structure and more than a quarter of the volunteers.

The Libertarian candidate for Mayor of San Francisco, Mike Denny, had a car in the parade, and we had our most successful Pride OPH booth in years (hundreds took the Quiz, dozens gave us their contact info, and a couple people joined the Party the same day). As usual, the dots on the Nolan Chart were evenly spread between Left Liberal and Libertarian, though some volunteers think Libertarian may have had a higher percentage this year. We even got coverage in the largest Chinese newspaper in North America (translation is in a message in our discussion group):

<http://groups.yahoo.com/group/lpsf-discuss/message/458>

Photos of the booth and parade (click the thumbnail in the index, then click on the 640x480 photo to get a high-resolution version) are available at:

The consensus among Excom members in attendance is reported (your editor wasn't in attendance) to have been that if the SCL's editor is willing to do the work of publishing the newsletter he deserves to be able to comment and set policies as he sees fit.

Apparently in accepting and debating the motion to terminate publication of the SCL it was overlooked that if it were to pass, it would have been illegal, because Section 8 of the LPSCC bylaws says:

"The Newsletter Chair shall be responsible for publication of a newsletter for dissemination of information about the Party to the members."

Obviously, since the Newsletter Chair was elected by the Party's members to perform this responsibility, and since the LPSCC's Excom is not empowered to overrule its bylaws, the proposed resolution would not have been enforceable had it received a majority vote. Under these circumstances the Chair, if he wished, could have refused to accept the motion. Perhaps he didn't have ready access to a copy of the bylaws at the meeting. ■

Marv Rudin, Publicity Chair

## Dear fellow Libertarian:

I would like you to take a brief poll. It won't take you over one minute - I promise. But before sending you to vote in the poll, first let me explain why I want you to take it.

As your Publicity Chair I am charged with the responsibility for organizing efforts which will create awareness of the LP among the public. If you look at the article in the June Issue of our LPSCC newsletter describing the easiest ways members can help to accomplish publicizing the Party, you will know that the biggest outreach and publicity advantage of the county Libertarian regions over the state and national LP organizations is proximity to the voters. You'll be aware that local member can put up public signs and can talk to the public at public meetings or one-on-one, and can hand out literature, about all issues - national, state and local, and you will know that talking is time and labor intensive while signs are not, and signs are always legal on vehicles but not on residential property.

As the article says, if you and other Libertarians would display brief-messaged Libertarian signs on your vehicles that give viewers who like the message a web site to visit for full information, and if the web address is unique and if visits to it can be counted, we could attract some of the estimated 100,000+ small L libertarians in our county to identify themselves by registering Libertarian. I have been researching homemade vehicle signs technology that would enable trying and testing various catchy brief messages (for example, "FREEDOM - Choose It Or Lose It") with the idea of testing them on our vehicles to see which attracts the most hits for its exposure. I'll soon be able to offer the Party the ability to provide free signs to members who will display them, as the cost will be well within the Party's present finances even if all members (but not all reg-lib'ns) will display them. And if good results are obtained, it shouldn't be difficult to persuade members to provide the successful signs to our county's 5000 or so registered Libertarians. If that were to happen, imagine the party's growth if the public were frequently seeing a catchy Libertarian message on vehicles all over the county!

But a significant hurdle in the way of reaching this objective is that many Libertarians may not be willing to display a sign on their vehicle. I discovered this surprising situation when phoning members in 1999 to inquire if they'd passed out their free LIFE cards mailed out with the SCL, and also when occasionally asking some of the Libertarians I know personally. They gave me a variety of reasons and excuses why they don't want to do it, some of which may be overcome and some insurmountable. With this in mind, I've been researching vehicle signs technologies hoping to be able to offer signs of various kinds that would overcome the objection of most of the reluctant members. For example, I will be able to offer cling signs for your vehicle's back window that can be easily removed and later replaced if you are going somewhere where you don't want people to know you're a Libertarian. And there are magnetic signs that can also offer this capability.

The signs technology study is taking a goodly amount of my time, and I'd like to narrow it down to just those sign types that would be accepted by the majority of vehicle-sign-reluctant Libertarians. To determine which sign types these are, I need you're feedback by means of the aforementioned poll.

Now that you understand why I need you to take the poll, here is how to go to the poll. Please click on the following link or the link in the margin box and go to the bottom of the page where you will find the 9 poll questions:

<http://www.lpty.org/p> . [Editor's note: this link takes you to same poll as link in yellow margin box]

Thanks for your input on this very very cost-effective means of publicizing the Party!

Best regards, Marv

# HIGHLIGHTS OF 3RD LPSCC CENTRAL COMMITTEE MEETING OF 2003

Written By Marv Rudin based on Minutes by Mike Laursen

Jerry Mungai & Al Newman

The LPSCC Central Committee's 2003 third quarterly business meeting was held at a long time traditional venue, Coco's Restaurant at Lawrence Expressway and Oakmead Parkway in Sunnyvale on July 10th. With about 20 members attending - 15 is a quorum for ordinary business, discussion, announcements, and voting on resolutions and other party business needing a vote occurred, California Freedom Editor, Elizabeth Brierly shot press photos, and two infrequent attendees, Jerry Mungai and Nicholas LaPorta, were present.

Chair Ray Strong presided. Secretary Joe Dehn was absent; Mike Laursen volunteered to do the minutes and was appointed as acting Secretary.

**Activities Planning:** Activities Chair Zander Collier said he was contemplating an LPSCC outing at a San Jose Giants baseball game as the annual social activity, and asked for an advisory show of hands of those who would attend, with roughly half responding affirmatively.

**Confirming 3rd LPC Rep:** Jon Hugdahl moved that Mike Laursen be ratified as Second Alternate Representative to the Libertarian Party of California Executive Committee and it passed without dissent by voice vote.

**Zander's Radio Plan:** Zander Collier presented an overview of the Radio Plan concept, which would broadcast ads comprised of brief statements by LP candidates giving a Libertarian view on topics of interest to the general public. He said his plan to date was written as a computer file lighthouse.doc, which the Chair asked be put on the LPSCC website.

**Candidate Recruitment:** Dennis Umphress reported on the status of candidate recruitment for upcoming campaigns; and explained that we will be making "Petition in Lieu of Filing Fee" petitions for our candidates available for downloading from the LPSCC website, and publish instructions in the LPSCC newsletter.

**Ballot Success:** Ray Strong reported that four school tax measures which LPSCC-EC members submitted ballot arguments against were defeated.

**Excom Vacancies:** Ray Strong asked for volunteers who may be interested in filling the vacant Vice Chair and Local Organizing Chair offices on the LPSCC Executive Committee. Two possible volunteers - Allen Hacker and Al Newman stepped forward.

**Membership:** He said LPSCC membership is continuing to shrink and invited debate as to the cause and what to do about it and then proceeded to give his theory, which is that the LP needs an improved national platform to attract people, one that would effectively counter Bush's "spreading democracy by preemptive wars" program. He saw the neocons Wolfowitz & Kristol - who guided Bush on the preemptive war policy which is now popular with Americans - as a problem. He said around the world, the winning culture is now free market capitalism, and a desperate response to this success causes other cultures to strike out, independent of administrations in the White House. In connection with how to grow the party, he mentioned that an LP donor in Orange County has offered to pay for Libertarian college clubs in any region in California for which a volunteer steps forward to administer as college rep.

**Resolution On AB1039 - Alternate Election Methods:** The following resolution proposed by Treasurer Jon Hugdahl with amendment by Scott Lieberman, was passed: "Whereas seeking alternative voting methods to streamline the electoral process while saving communities dwindling tax dollars, and "Whereas AB 1039 allows municipalities to enact alternative election methods, including Instant

Stories about local Libertarians publicizing the party

## LIEBERMAN AND HICKEY ON DON CORMIER'S RADIO SHOW

Reported by Marv Rudin

Don Cormier  
Free & Clear

On July 23rd local Libertarian office holders Scott Lieberman and Jack Hickey appeared on Libertarian Don Cormier's pre-8 AM radio show, "Free and Clear" on KKUP (91.5 FM). Lieberman, who is Chairman of the San Jose Rent Control Board spoke and fielded question on rent control policies in San Jose. Hickey, who ran and was elected to the Sequoia Healthcare District Board of Directors last year as a Libertarian "watchdog" on district spending and justification for existence, spoke and fielded questions on the excessive and unneeded activities of the board. In addition to his board office, he continues as Chair of the San Mateo County Libertarian Party, which he's been for several years, and is also none of two LP candidates running for CA

Scott Lieberman

governor.

Host Cormier, who shares hosting the Free and Clear show with Reform Party politician Valli Sharpe-Geisler, and liberal Democrat Yolanda Reynolds, said his two Libertarian guests engaged in a lively discussion with him and his two co-hosts and drew a number of calls. He said it came out that "the S.J. Rent Control Board doesn't have a great impact because it only has jurisdiction over pre-1972 constructed rental units, which constitute just a quarter of all S.J. rentals." He said Hickey said he "ran on a platform of a Libertarian wanting to eliminate waste by closing down the district;" and although a minority of one, he has pushed for and gotten pre-announced and open meetings so citizens could attend, which was not happening previously. Cormier said that although the subject matter was on the guests' offices "Libertarian" was mentioned frequently.

## THREE LIBERTARIAN TALK SHOW HOSTS GO

Reported by Scott Lieberman

In July, Neal Boortz, Larry Elder, and Lionel were removed from the KNEW radio lineup. All 3 are libertarians. Given the small number of talk radio stations in this area, most of these hosts are not going to be picked up by another San Francisco area station. Of the three, I think Neal Boortz is the most enjoyable to listen to.

If you would like to see Neal Boortz remain on the air on a San Francisco station, I suggest you write to KSFO. They just lost Michael Savage, and are currently running repeat hours of Sean Hannity to fill the time. They could easily work Neal Boortz into their schedule. I suggest you write to the following person and ask for Boortz:

Runoff Voting and Proportional Representation;

Announcements: Al Newman announced a Free Enterprise Society event on Aug 16-17. Contact him at [al.notaxnewman@juno.com](mailto:al.notaxnewman@juno.com); Allen Hacker announced a recent watershed Tax Court ruling - audio recording of hearings is now OK (IRS hadn't allowed in past). He said this can void past untaped hearings if taxpayer claims he tried to tape and was denied.

## ON EL CAMINO HOSPITAL BOND MEASURE

We're FOR: the state letting hospitals compete on their own and not mandating updates. Let the best hospital win.

We're FOR: well run hospitals who plan their necessary upgrades like any business should (of course they don't want their roof to cave in and kill their customers any more than any business would)

We're FOR: privatization of health care, so people get to choose their own doctors, hospitals, medicines, etc.

We're AGAINST: the costly method of borrowing as a way to fund expenses, and the forcible nature of the inevitable taxing when needing to pay off those debts.

Elizabeth Brierly

The Greens are very much involved in promoting the IRV system. They realize that the current system of two major parties and plurality voting makes any third party subject to the label "Spoiler". The Greens are active in lobbying city, county, and state officials to promote IRV and move it forward. Unfortunately they want to push campaign finance reform as well.

Norm Nelson

If I had a choice between radio advertising, or distributing a tabloid in a local newspaper, like the Mercury News or Metro, I would prefer to distribute Libertarian Viewpoint. I think the return on investment would be much higher.

## NEWS BRIEFS ON TOPICS OF LOCAL LP INTEREST

Reported By Marv Rudin

■ Dennis Umphress started collecting signatures for Hickey for CA Governor, saying "I am helping Jack Hickey collect signatures here in Santa Clara County. Jack is one of our candidates to replace Davis as governor. To download a "Petition In Lieu of Filing Fee" go to <http://users.cwvnet.com/jackhick/>.

Each signature we collect saves Jack \$23.33 in filing fees.

Money that won't be paid to the state.

■ The SC County Board of Supervisors approved a Citizens' Oversight Committee for electronic voting -- no Libertarians were invited to be on the 7 member committee.

■ Unpublished LTE Sent to Chronicle: "Scott Holleran is right. The Republicans, with their anti-sin laws, are not for individual rights anymore. But neither are the Democrats with their tax-and-spend stealing of people's earnings and their gun control laws that deny individuals a reliable means to defend themselves. Only the Libertarians stand for everyone's individual rights to do what they want as long as they don't harm others. Marv Rudin Sunnyvale

■ Noted by Mike Laursen in SJ Mercury News: "San Jose is still running its drive-by blight patrols even as the State is cutting redevelopment funding: : 'Most code enforcement responses are complaint-driven. But the Driveway Team is 'so much more effective and efficient,' said Mollie McLeod, a five-year veteran inspector out on a sweep last week with supervisor Diane Buchanan through the Edenvale/Great Oaks area of South San Jose.'
