

LIBERTARIAN

PARTY HISTORICAL PRESERVATION COMMITTEE

MEETING SUMMARY May 1, 2019

Date and Time: Wednesday, 1 May 2019 at 4:00pm Mountain time

Where: Online: Zoom

Committee Attendees: Joe Dehn, Ed Fochler, James Gholston

Other Attendees: none

The meeting was called to order at 4:08pm Mountain time.

Records of Past Meetings: The minutes of the 17 April meeting were approved.

Records Archive: Joe reported that he recently visited the national office and while there he noticed a box in the store room containing a large banner from when David Nolan ran for US Senate along with a few smaller items relating to him; these had been donated by Elizabeth Nolan before the formation of this committee, but now should probably be shipped to our Colorado storage room.

Scanning Technology: Ed reported that he still has not received the scanner that he ordered.

Site Statistics: Ed reported that traffic continues at about the same level, and that there was recently a burst of interest in Carol Moore.

Featured Article: Joe reported that he changed Libertarian Party of California Voter Registration to be the featured article, selecting it mainly because it has a nice graph. There was discussion of the fact that this image, which is horizontal, doesn't fit properly in the featured article block if the browser window is narrow; we will try to find a way to get such images to automatically resize in that context.

California: Joe reported that the LPC HPC currently has one vacancy; he expects this to be filled as part of the general LPC process of recruiting committees following the recent convention.

Publicity: Ed reported that as an experiment he put an “lpedia.org” bumper sticker on his car, in Maryland, for a week, but that it had not resulted in any measurable activity from that state.

Button Photos: Joe reported that while in the national office he had a chance to examine the button displays, as well as the framed t-shirts; these appeared ready to hang on the wall but were not actually up yet because of a pending painting project.

Future Meetings: The next meeting is scheduled for 15 May 2019.

The meeting was adjourned at 4:35pm Mountain time.
