

2022 LIBERTARIAN NATIONAL CONVENTION SPARKS, NEVADA

UNOFFICIAL NOTIFICATION OF DELEGATE ALLOCATIONS

**PREPARED BY CARYN ANN HARLOS
LNC SECRETARY IN EXILE (NOT RECOGNIZED BY LNC)**

METHODOLOGY

The Libertarian Party national bylaws provide the methodology and definitions necessary for determining the number of delegates allocated to each state affiliate as follows:

ARTICLE 10.3 REGARDING CALCULATIONS FOR ALLOCATIONS

Each affiliate party shall be entitled to send delegates to each Regular Convention on the following basis:

- a. One delegate for each 0.14 percent, or fraction thereof, of the total Party sustaining membership in that affiliate; provided that at least one such delegate must be a resident of that State or District.
- b. One delegate for each 0.35 percent, or fraction thereof, of the votes cast nationwide for the Libertarian Party candidate in the most recent presidential election, cast in that affiliate's state.

IMPLICATIONS

Since there are approximately 714¹ slices of a whole at 0.14% each and approximately 286² slices at 0.35% each, a Libertarian Party national convention will have slots for *at least* 1000 delegates. However, since affiliates are credited for 'fractions thereof', the **maximum** result hovers around 1050 possible delegates. This year there are a total of 1053 delegates as compared to 1046 in 2020.

ARTICLE 4.4 DEFINING SUSTAINING MEMBERS

"Sustaining members" are members of the Party who:

- a. During the prior twelve months have donated, or have had donated on their behalf, an amount of at least \$25; or
- b. Are life members.

ARTICLE 10.4.1 SETTING CUT-OFF DATE FOR CALCULATIONS

Delegate Allocation:

- a. In order to be counted for delegate allocation, sustaining membership applications must be sent to the National Headquarters by either the individual member or the affiliate party and received or postmarked no later than the last day of the seventh month prior to the Regular Convention.

May 26, 2022 is the first business session of the 2022 Libertarian Party National Convention making the last day of the seventh month prior October 31, 2021.

¹ To be more precise, 714.29 when rounded to two (2) decimal places.

² To be more precise, 285.71 when rounded to two (2) decimal places.

ARTICLE 10.4.C REGARDING ALTERNATE DELEGATE ALLOCATIONS

The number of alternates' names submitted shall not exceed the greater of 50 or the number of delegates allocated.

Therefore, every affiliate may name up to fifty (50) alternate delegates, and if any affiliate has any more than fifty (50) regular delegates allocated, they may name as many alternates as they have delegates.

NOTE

Percentages used for determination of regional formations will be sent in a separate manual as the percentages used differ slightly and have caused confusion in the past. There are additional bylaws provisions that come into play. Additionally, a delegation chair manual and a delegate manual will be sent as convention approaches. I am willing to customize the delegate manual to fit the needs of any particular affiliate's rules, please contact me to discuss same.

NOTICE

No part of this document is to be considered personal work product and may be used freely provided that the unofficial tabulations are not changed unless they differ from the ones recognized by the LNC. At this point in time, it has been verified they do not.

Honoured to be serving as your national Secretary for the 2020-2022 LNC term until I was unjustly removed and equally honoured to continue to serve in an unofficial capacity as my duty is to the delegates who saw fit to elect me. I firmly believe that fundamental Libertarian principles were abused and bylaws gamed to remove me, and I leave it to the convention delegates in 2022 to be the ultimate judge of that. Until that time, I will continue to do the job I was elected to do with the resources that remain at my disposal. I am willing to discuss this personally to anyone interested. I hope this resource is useful to your affiliate as you plan for the national convention.
