"Notes" -- cont. from page 1
members by the year 2000.

Another tribute to local political self-defense is reported in "California Libertarian News." Of three vacancies on the Lake County city of Clearlake town council, two have been filled by Libertarians.

Kansas libertarian Douglas Merritt, who has a regular "Libertarian Viewpoint" column in the Atchison Daily

Globe, takes a good whack at the Bush plan for national child care programs: "...they say that if we bribe mothers with one, two, or three thousand free dollars to leave the home and work outside and put [the children] in the hands of social workers it would somehow 'strengthen the family.' Hogwash!"

"Chuck's" -- cont. from page 7
alist and openly critical of the trend of the two other parties. He also carries alot of clout in the Mormon community... another group of people who should be sympathetic to, (and active in) our endeavors but have been scared away due to media slandering. I don't know much about the other gentleman except that we will be given first-hand insight to the Soviet experience. The admission price is only \$6, which includes both shows.

A special thanks to all who advertise in this publication. I want you to know this thing is a beacon to the rest of the LP's across the country. ... including the national! Although I am still type-setting, laying-out, and printing at a "loss" compared to market rates, it sure beats 15+ hours of voluntary work that I can't afford to give. You are truly supporting "Freedom of the Press." If anyone who can type reasonably well would like to share some of the profits, just call me: 739-6750

LIBERTARIANS LEAD THE WAY WITH LV ANTI - INCOME TAX ACTIVITY

NO OBJECTION TO ABUSIVE TAX OR IRS VOICED
BY REPUBLICAN OR DEMOCRATIC PARTIES

By Chuck Geshliger

The Income Tax, with its merry band of henchmen: the IRS, those lawless bureaucrats masking as collection agents, will certainly see some activity from the Libertarians this April. Because the other two parties sit by the wayside, as usually timid, the *status quo* of our country's counter-productive, unconstitutional and generally loathsome income tax will remain protected. The Libertarian Party of Clark County has already begun its assault on the tax and its most avid supporters: the spineless R's & D's, and plans to continue the fearless assault right on up to the tax filing deadline.

In case you missed it, on March 22, 1988 Vice-Presidential LP candidate, Andre' Marrou filled the K-DWN airwaves with a powerful delivery of the Libertarian message. The talk-show was precluded by two days of commercials denouncing the IRS while advertising the event. This purchase, made possible by your fund-raising efforts, made the station's management very receptive to the idea of an LP guest. Mr. Marrou got very positive response, including 100% unanimous agreement with our stand on the income tax. He was enthusiastically invited back in June. In addition, our 734-FREE line got about 25 calls as a result.

Upcoming: The Nevada TRIM (Tax Reform IMmediately) Committee is sponsoring Mr. Lew Rockwell of the Ludwig von Mises Institute (the Economics fountainhead of the LP) to speak at their monthly meeting. Although not a political organization, TRIM is in line with the Libertarian view of the need to abolish the income tax (and probably every other stand on taxation in general). Their stated goal is to educate the populace on proper government functions

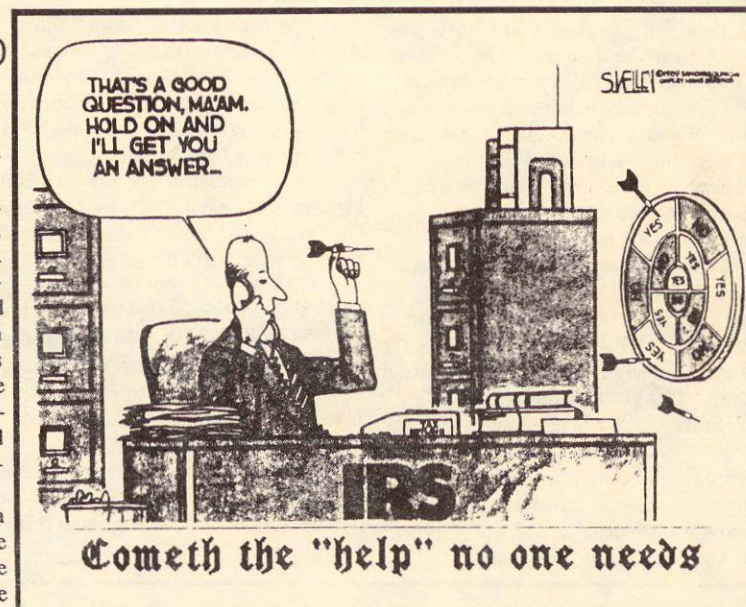

in the economy and keep voters abreast of our Congressman's voting record on important spending bills. The gala event is scheduled for April 11th at 7:00pm, and priced right, in one of the finest Italian restaurants in this town: Manfredi's Limelight. Please see the enclosed flyer for more details. The Libertarian Party has been invited to help make this event a success and it is hoped that we will take full advantage of the opportunity to introduce ourselves to, and make a good impression with, a distinguished group of people.

On April 15th we are having a tax-protest car-wash fundraiser. Please see the flyer for details. We'll start the hoop-la at 10am and continue until we're satisfied. We will not need adults to do the actual washing as we plan on having a sufficient number of kids. However we need your help to manage them, collect money, pass out literature, sell our new Anti-IRS hats, or address newcomers' questions. At the present we are in contact with other sympathetic action organizations to join us. Our goal is to get major media coverage, so please take Cont. on page 2 -- See: "Anti-tax"

"LIBERTY BELL" GEORGE

By Paula Miller

The TV droned on tonight, burbling its usual drivel as I folded and stapled flyers touting upcoming Libertarian events. My attention was abruptly demanded by a public service announcement informing the viewer of May's "Liberty Bell Days." The announcement requested the submission of individual's names who had, by their exemplary acts, propagated knowledge of our exalted Constitution, and in the same breath, the awareness of our Cont. on page 6 -- See: "Bell"

NATIONAL LP NOTES

The following is a reprint from the National LP newspaper "LP News." Please consider joining the National Party so we don't have to spend time and utilize valuable space to reprint what would cost you \$15 per year to attain first-hand.

In 1988, Ron Paul and Andre Marrou received an unprecedented record number of votes for a Libertarian presidential candidate in 60 Kansas counties. The reason? The KLP flooded the local TV media with Libertarian political ads. -- Richard Winger.

Some of you may remember that the "News Election Service" refused to announce LP candidate election figures in the 1988 national elections. Margaret Fries, of the LP-New York, is spearheading an effort to either join, or initiate a lawsuit against the "NES" and its

supporters (CBS, NBC, AP, UPI, Xerox, and AT&T). Those interested should contact her at RD #2, Box 135, Conklin, NY, 13748, phone: (607) 775 2704.

"Free Kentucky," newsletter of LP-Kentucky, has refloated a Mitch Wayne idea that the party's nomination for the U. S. Presidential race should be sold, and not simply voted on. To start a campaign warchest and begin collecting money for TV exposure, Wayne suggests that candidates put up \$2,000, that nominators put up \$1,000, seconders: \$500, with \$100 expected from rank and file members who want to vote for a candidate, with the eventual winner taking the whole pot to get started on.

Powerful political math is offered by Rich Kleinow in "Minnesota Libertarian:" Suppose the conservative estimate of 100 libertarians in each state. If each one signed up just one new member per year, there would be 40,960,000 Cont. on page 8 -- See: "Notes"

LEGISLATIVE BODYSNATCHERS

By Steve Jorgenson
American Freedom Coalition

Does the state have the right to give the gift of life? It seems like some of the folks in Carson City think so. On April 3rd, the Nevada Assembly passed AB 226 by a 26 - 15 margin. This is a bill that would permit a coroner to donate body parts of a deceased individual without prior approval from the deceased or his heirs. Under this legislation, anatomical "gifts" would not be permitted if the deceased opposed the donation before death, or if heirs disapproved.

Let's consider a situation where a deceased individual had not gone out of their way to make it perfectly clear that he or she did not wish to be dissected after death? What about someone who might object to this anatomical gift procedure on the grounds of theological or philosophical conviction? Who would defend his preferences? Do his individual

rights cease to exist upon the conclusion of his physical life? Are those individual rights to be naturalized automatically to the state upon his demise?

This sounds like some interesting stuff for the U. S. Supreme court to thrash about, but not the Nevada Legislature. It is now going to the Senate for a vote. If you would like to have a say on this issue while you are still breathing, give your Senator a call at 1-800-992-0973.

QUOTES OF IRONY!

"The free market is not only a more efficient decision maker than even the wisest planning body, but more important, the free market keeps economic power widely dispersed."

-- John F. Kennedy

"Bell" -- cont. from page 1

laws. The producers didn't seem to be cognizant of this disparity, all too evident to those who truly seek justice and liberty.

Names I can give them; names that live libertarianism. . . Proud names that fight for the survival of the Constitution and the Bill of Rights so that they can happily endure derision and apathy everyday from those they may try to enlighten.

Not to be allowed my own apathy, I was further alerted by a familiar name. We were being told to address our suggestions to Judge Lloyd George c/o the Foley Federal Building. None other than the self-same Judge George who will (or won't), on April 28th, have the distinct honor of declaring Nevada's "Minor Political Parties Qualifications Procedure" statute unconstitutional. How ironic.

Sir, here is your chance to be every Libertarian's nominee for the "Liberty Bell Award."

In the words of the great Robert

Hunter, "Put your money where your mouth is baby and don't you let that deal go down." . . . especially since we all know it's a dirty deal.

At the recent California Libertarian Convention, another esteemed man, Russell Means, told us to spread libertarianism by reaching out with love. What greater act for love of liberty than to grant acknowledgment, to Libertarians, of the right to exist. . . and to the voters, the right to a real choice.
