New York State Comptroller  
Morton I. Borzykowski, Treasurer  
24 Catherine Street  
Delmar, New York 12054

The New York State Free Libertarian Candidates are:

John H. Northrup for Governor, a 30 year old accountant and instructor at Syracuse University. John has proposed tuition tax credits as a first step to eliminating state control of the public education system, elimination of numerous state agencies which regulate business and interfere with voluntary business market relationships, repeal of victimless crime law and the repeal of the New York State personal income tax and licensing laws.

David Hoesly for Lieutenant Governor, an active organizer and able administrator for the Libertarian Party in Rochester. Dave is an engineer.

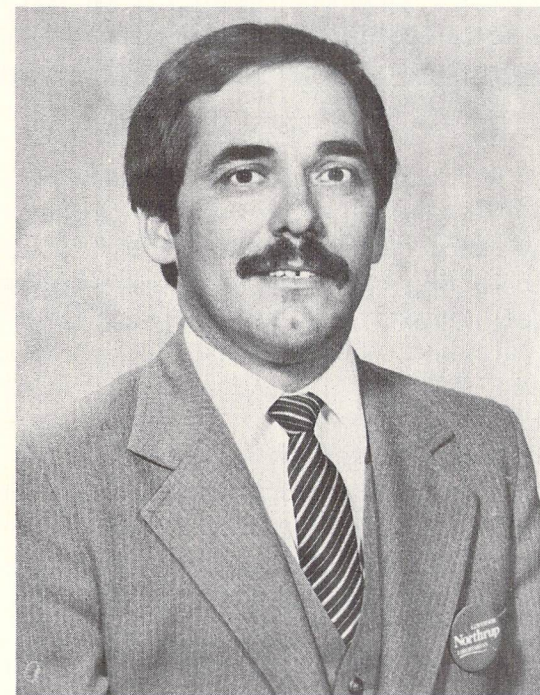

Delores Grande for Attorney General, an attorney who has previously campaigned for district attorney in Manhattan.

James McKeown for United States Senate, a CPA from Binghamton, New York, who helped organize the Libertarian effort in that city. Jim will be campaigning on the issues of taxation and government intrusion in our lives.

The goal of the 1982 campaign is to achieve ballot status for the Libertarian Party. Presently, we face the necessity of circulating petitions each time we wish to run a candidate for federal, state or local office. 50,000 votes for John Northrup will automatically put us on the ballot for the next four years. *Northrup votes are the only votes that count toward that goal.* Our opportunities in the future will be so much better if you would cast your vote for John Northrup for Governor.

# WILLIAM P. McMILLEN

## LIBERTARIAN FOR COMPTROLLER OF THE STATE OF NEW YORK

**Vote for Bill McMillen for  
State Comptroller to establish  
an independent oversight  
of State spending.**

## THE LIBERTARIAN PARTY

believes in the right of each person to their life, liberty and property. It was formed in 1972 with the objective of extending those rights to their furthest limits so long as no person or institution, public or private, does not forceably interfere with the equal rights of others. Unlike any other political party, we deny, for whatever reason and on every issue, the right of government to violate these rights and to initiate or threaten the use of force.

We are opposed to government interference in the personal life styles or presumed self-destructive activities of individual people. We are opposed to the manipulative activities of the U. S. Intelligence Agencies, State Department and Defense Department at home and abroad designed to create tense international situations so as to maximize their own importance, and we object to government interference in the voluntary market relationships of people which is a free enterprise system.

In any issue, Libertarians ask the question, will the proposed course of action add to or detract from individual liberty; and on every issue, Libertarians choose liberty. Freedom is the issue and in politics, it is the only issue.

## THE POSITION

The Comptroller of the State of New York is the chief fiscal officer of the state responsible for auditing the financial transactions and management practices of state agencies, commissions and public authorities; and the financial practices of the 1600 cities, counties, towns and villages, and thousands of special districts in New York State. He is also responsible for the management of the New York State Employees Retirement System and the New York State Policemen and Firemen Retirement Systems, including investment of funds and payment of claims.

*With thousands of Democrats and Republicans spending money at every level, shouldn't the State Comptroller be someone other than a Republican or Democrat?*

## INDEPENDENCE REQUIRED

The auditing functions and reporting obligations relating to that function requires independence of such auditor from the decisions and performances being audited. The position of Comptroller of the State of New York requires a truly independent administrator, one without political ties to the spending policies and management practices of the post. The Comptroller should be someone who is an advocate, in philosophy and deed, of the taxpaying public; someone who knows whose money is being spent and how it was obtained.

## QUALIFICATION

Bill McMillen is a certified public accountant with 15 years of experience in accounting, taxation and auditing. He is capable of understanding the complex nature of the state's financial position, the interrelationships of federal, state and local spending, and willing to blow the whistle on any outrageous expenditure of funds, whether legal or illegal.

The New York State Comptroller should be a person of integrity, able to say no as a matter of principle. Bill McMillen said "no" in 1965 to the Vietnam War and compulsory service, and spent two years in prison.
