

Proposal # _____

Date Heard:

Vote:

Article 7: National Committee AND Rule 8: Election of Officers and National Committee

Problem: Many people who have considered the issue agree that the LNC is too large and often does not function well.

Solution: Elect a smaller group of people more focused on oversight instead of trying to elect a super-volunteer corps.

Benefits: A more functional, more focused, and less fractious Libertarian National Committee.

Proviso: *This amendment shall take effect upon the final adjournment of the convention at which it is adopted.*

If possible I'd like to have this considered at or around the same time as the other proposals to restructure the LNC.

Also, I've made a spreadsheet of LNC motions from the last three terms so that we can see what kinds of decisions LNC members are currently elected to make. We can discuss what the LNC *ought* to do, but the spreadsheet shows what things they currently *actually* do.

What I'd like in an LNC member - and others may want something different - is someone who knows that their job is oversight and overall direction, not management or execution. I want good brand ambassadors, people with histories with finances or achieving goals, or someone who brings credibility to the party. A team member rather than someone in it for themselves or an ambassador for others.

I have a lot more to say about this, but I'll save it for the discussion.

I do have one question though for those with more direct experience than me though: How much productive work gets done by all the various subcommittees of the LNC? How much baby are we throwing out with the bathwater if we reduce the number of LNC members available to do committee work?
