Cah,

For far too long, the National Security Agency (NSA) has been a symbol of government overreach and intrusion into the private lives of American citizens. Since its creation on November 4, 1952, the NSA has repeatedly overstepped its constitutional boundaries, eroding our fundamental rights and violating the very principles upon which our nation was built. The time has come for a change, and from a libertarian perspective, the abolition of the NSA is not just an idea – it's a moral imperative.

In 2013, the world learned the shocking truth about the extent of NSA surveillance through the courageous actions of Edward Snowden. As a contractor, he risked his freedom to reveal that the NSA was spying on every American without cause, flagrantly disregarding the Fourth Amendment and the principles of a free society. **Snowden is not a traitor;** he's a whistleblower who exposed the blatant violations of our rights. It's time for our nation to recognize his courage and sacrifice by pardoning him and welcoming him home as a hero, not a villain.

The Libertarian Party stands as a beacon of hope in these troubled times. We advocate for limited government, personal freedom, and the protection of individual rights. Abolishing the NSA is a crucial step toward restoring the privacy and liberty that every American deserves.

We believe in a future where the government respects the Fourth Amendment, where the Constitution is upheld as the supreme law of the land, and where the principles of liberty and privacy are cherished. **We envision a world where Americans are free from unwarranted government intrusion into their private lives.**

Join us in the fight for a more free and open society. The Libertarian Party is the solution to reducing government, abolishing intrusive alphabet agencies, and defending the rights and freedoms of every American.

We need your support to bring about this change.

Visit lp.org/donate to contribute to our cause, and help us protect the rights and privacy of every American. Together, we can build a future where the NSA is but a dark chapter in history, where whistleblowers like Edward Snowden are celebrated, and where our nation stands true to the principles of liberty, justice, and the pursuit of happiness for all. Join us in this crucial mission and be a part of the solution to restore our nation's commitment to freedom and privacy.
