Special Guest Speakers

Skyler DeAngelo, President of Young Americans for Liberty, SUNY
Albany Chapter. Mr. DeAngelo will brief our assembly on the current state
of YAL and how the LPNY and YAL may work together in the upcoming
election(s) to elect liberty-based candidates.

Stephen Aldstadt, President of Shooters Committee on Public
Education (SCOPE). Mr. Aldstadt will offer our members an overview on
the current anti-SAFE Act movement and how the LPNY can help repeal
this unconstitutional law.

Blair Horner- Legislative Director for New York Public Interest
Research Group (NYPIRG). Mr. Horner's extensive thirty year career in
accountability in government, consumer protections and voter advocacy is
well documented. Blair's efforts have resulted in several statewide
consumer protection and citizen rights' initiatives such as "Project
Sunlight".

Geoff Neale- Chairman of the Libertarian Party.

"Make no mistake about it- the Libertarian Party is committed to
instituting revolutionary changes to our political systems. How can
libertarians sell the need for revolution? How can we sell ourselves as the
best agent provocateurs of the revolution? How do we get people to join
the revolution?"
