

## Proposal L (there is accompanying XLS exhibit)

Date Heard:

Vote:

### Amendment to Bylaws Article 10.3

**Problem:** The current delegate allocation is based in part on each state's share of presidential vote totals, meaning that a state party could be allocated less delegates if they were to fail to qualify for the ballot due to onerous ballot access laws in their state.

**Solution:** This proposal will separate delegate allocation from presidential vote totals, while maintaining a similar total number of delegates.

**Benefits:** This proposal will prevent state party delegate allotments from being subject to onerous ballot access laws. It will also encourage state parties wishing to increase their delegate allocation to seek out more members for the national LP, which will help with the LNC's bottom line.
